can make a difference.

# Habitat Build Day

*The Ultimate Team Building Experience*

## We are building 3 homes in 2017!

This one-of-a-kind team building opportunity allows corporate teams to spend the day on a Habitat build site, building affordable homes for local hardworking families. Companies of all sizes can engage their employees and encourage stronger relationships, while learning new skills.

When you arrive on a Habitat for Humanity job site, true team building occurs. Participants are suited up in safety gear, trained and led through a variety of construction tasks while working together in a safe and fun environment. No construction experience required!

By the end of your Habitat Build Day, your group will be connected with one another and the community in a truly unique way. The satisfaction of a tangible volunteer experience will leave your group motivated, exhilarated, and ready to take on the next challenge!

### A Habitat Build Day Package Includes:

- Skilled Site Supervisor to lead your team.
- Tools, safety equipment (i.e. hard hats and steel toed boots).
- Build site access for 5-15 people.
- Habitat for Humanity t-shirt.
- Lunch and snacks throughout the day.
- Team photo on build site.
- Recognition of your business on Habitat for Humanity Kingston Limestone’s website and social media pages .
- Invitation to the Dedication and Key Ceremony.

### Level of Investment

from \$2,500 up to \$10,000 depending on group size

Creating employee volunteer opportunities is not only good for community, it is good for business.
