## Stud-a-thon

Help BUILD a Home by sponsoring a STUD!

- Studs are a piece of board at 2"x4" and 92 5/8" tall.
- It takes over 300 of these studs to frame each Kingston Limestone Region Habitat for Humanity home.
- Studs are available to sponsor at the cost of \$200 each.
- When you sponsor a stud you can take the stud and decorate it with your name, group name, logos, or messages to the family who will live in the home! *(Or if you choose we could decorate the stud for you!)*
- These studs will then be used to build the walls of the Habitat home.

## Stud Finder

When you sponsor a stud you will be invited to our Stud Finder event where you will be able to see your sponsored stud built into a house frame!
